

The ThaiSim Newsletter serves:

- as a forum for discussion among ThaiSim members;
- as a resource for simulation and games for learning

Editor's Note

Dear All,

Happy i would not out this - as it dates the issue too much Before we get started telling you what's in the first issue of the ThaiSim Newsletter, we'd like to thank all ThaiSim members for helping us launch the first one

For our communication between the association and members and as a large space resource for simulation and games for learning, the newsletter will be released twice a year.

In this first issue, there are various interesting topics contributed from our honored members. We do hope you get value from these mailings. If you think a friend or colleague would benefit from this newsletter, please send them a copy.

Thanawat Nutayangkool
